PRECISION PRINTING TECHNOLOGY

Precision printing is inspired by photography and materials from the environment. Our technology reproduces every detail, even the fine lines that are too small for the naked eye. The rich tones and exquisite beauty created by advanced technology are what set AdaWall's Vas wallpaper, our designs are printed using the gravure technique, which is a world-class printing method for achieving maximum detail and tone.

100% PURE WATER BASED INKS

High quality and precise printing begins with the finest ingredients. Water-based inks from Netherlands and Korea realize superb colour reproduction plus environment-friendly manufacture. What completes 100% pure water-based inks is the GSE colour dispenser, which provides optimized dispensing solutions.

CYLINDERS DESIGNED TO DELIVER PINPOINT ACCURACY

Precision printing can only be utilized with precisely engraved print cylinders that replicate even the minutest details. Embossing sheets of nonwoven and paperback using a steel embossing roller and paper ball work in conjunction with each other.

STRICT QUALITY CONTROL SYSTEM

AdaWall's extensive expertise in quality management enables the production of the World's Finest Products. The process of quality is supported by a specialized line inspector. Specialized line inspectors are checking at key sections to support the process of quality management, which is capped by a rigorous final inspection. All the finished products are put to test and trial application.

TR *Esin kaynağımız, her koleksiyonun içinde gizli kalan detaylar... Bir ışık kırılması, zarif bir çizgi ya da sade bir dokunuş. MUSE, bu inceliklerden doğdu. Modern çizgiler ile zamansız zarafeti buluşturan koleksiyonumuz, duvarlara yalnızca estetik değil; aynı zamanda kimlik kazandırır. Her desen, yaşam alanlarına dekorun ötesinde bir ruh ve hikaye taşır. Modern tasarımlar, zarafetle harmanlanır; her mekâna özgün bir atmosfer sunar. MUSE, sadelikten aldığı güçle çağdaş yaşam alanlarına değer katmayı hedefler. Çünkü bizce estetik, yalnızca görülen değil; aynı zamanda hissedilendir. Her mekân, ilhamla başlar.”*

EN *Our inspiration lies in the subtle details hidden within every collection a reflection of light, a refined line, or a simple, thoughtful touch. MUSE is born from these nuances. Blending modern design with timeless elegance, the collection brings not only aesthetic value but also a distinct identity to walls. Each pattern carries a sense of character and narrative, elevating living spaces beyond decoration. Through refined modern forms, MUSE creates a unique atmosphere for every interior. Rooted in simplicity, the collection adds lasting value to contemporary spaces. Because we believe true aesthetics are not only seen, but felt. Every space begins with inspiration.*

RU *Наше вдохновение скрыто в тонких деталях каждой коллекции — в преломлении света, изящной линии или сдержанном прикосновении. MUSE рождается из этих нюансов, объединяя современный дизайн с вневременной элегантностью и придавая стенам не только эстетическую ценность, но и индивидуальность. Каждый узор наполняет пространство характером и историей, выходя за рамки обычного декора. Благодаря утончённым современным формам MUSE создаёт уникальную атмосферу в каждом интерьере. Черпая силу в простоте, коллекция добавляет ценность современным жилым пространствам, ведь для нас эстетика — это не только то, что видно, но и то, что ощущается. Каждое пространство начинается с вдохновения.*

TR *Hue en basit tanımıyla, saf renkler anlamını taşır. Aslında hep daha karmaşık anlaşılabilir da Hue renk tekerleğindeki herhangi bir renk olabilir. Öte yandan Hue, baktığımız bir rengin renk ailesini ifade eder. Görsel olarak çevremizdeki her şeyin rengini görmemiz, birçok duygu ve düşüncüyü tetikleyebilir. Bu koleksiyonumuzda görsel dünyamızı zenginleştiren, duygularımızı etkileyen ve çevremizdeki her şeyi daha anlamlı kılan renklerle kağıdın dokusunu bir araya getirdik. Hue'daki ürünlerimiz, sadece duvarları kaplamakla kalmaz, aynı zamanda yaşam alanlarının tasarımına soft ve sakin tonları ile katkıda bulunur. Hue koleksiyonumuzdaki duvar kağıtları boyaya göre daha sağlıklı, daha kokusuz ve daha uzun ömürlüdür.*

EN *Hue, in its simplest definition, means pure colors. Although it is often understood in a more complex way, hue can be any color on the color wheel. On the other hand, Hue denotes the color family of the color we are observing.*

Seeing the colors of everything around us can trigger many emotions and thoughts. In this collection, we have combined colors that enrich our visual world, influence our emotions, and make everything around us more meaningful with the texture of the paper.

Our Hue products not only cover walls but also contribute to the design of living spaces with their soft and calming tones. The wallpapers in our Hue collection are healthier, more odorless, and more durable than paint.

RU *HUE, в самом простом определении, означает чистые цвета. Хотя часто его понимают более сложным образом, оттенок может быть любым цветом в цветовой гамме. С другой стороны, оттенок обозначает семейство цветов, которые мы видим.*

Цвета вокруг нас, могут вызывать множество эмоций и мыслей. В этой коллекции мы объединили цвета, которые обогащают наш визуальный мир, влияют на наши эмоции и делают все вокруг более осмысленным благодаря текстуре бумаги.

Наша продукция Hue не только покрывает стены, но и вносит свой вклад в дизайн жилых помещений благодаря своим мягким и успокаивающим тонам. Обои из нашей коллекции Hue более безопасны для здоровья, не имеют запаха и более долговечны, чем краска.

TR Efsaneye göre, İmparatoriçe His Ling Shi bir gün dut ağacının altında çayını yudumlarken, bu sırada bir koza fincanına düşerek çözülmeye başladı. İmparatoriçe, çözülen ve parlayan ipliklere öylesine hayran kaldı ki, sonrasında iplik eğirme makinesi ve dokuma tezgahını icat etti. Böylece hala arzusunun kumaşı olarak bilinen lüks ipek keşfedildi. AdaWall'un Ephes koleksiyonu, sizi klasik ve zarafetin sonsuz denizinde kaybolmaya davet ediyor. Modernizmin Ephes'ten gelen antikalarla nasıl buluştuğu hikayesini duymaya hazır olun; duvarlarınız tarihle dolacak. Ephes Koleksiyonu, neo-klasik ve geleneksel tasarımlar arasında mükemmel bir uyum ve simetrik oranlar sağlayarak hem çekici hem de etkileyici bir görünüm sunar. İpek efsanesi gibi, Ephes de benzersiz ama arzu edilir bir şey keşfetmenizi sağlıyor.

EN According to legend, one day Empress His Ling Shi was sipping tea under a mulberry tree when a cocoon fell into her cup and began to unravel. The Empress was so amazed by the unraveling and shining threads that she invented the spinning machine and the loom. Thus, the luxurious silk was discovered which still known as the fabric of desire. AdaWall's Ephes collection invites you to get lost in an endless sea of classic and elegance. Be ready to hear the story of how modernism meets with antiques from Ephes; your walls will have history beneath them. The Ephes Collection offers a perfect balance and symmetrical proportions between neo-classical and traditional designs, delivering both an attractive and impressive appearance. Like the silk legend, Ephes helps you discover something unique yet desirable.

RU Легенда гласит, что однажды, когда императрица Хис Лин Ши потягивала чай под тутовым деревом, он начал растворяться, упав в чашку с коконом. Императрица была настолько очарована нитями, которые распутывались и блестели, что впоследствии изобрела прядильную машину и ткацкий станок. Таким образом, был обнаружен роскошный шелк, который до сих пор известен как ткань желаний. Коллекция Ephes от AdaWall приглашает вас погрузиться в бесконечное море классики и элегантности. Приготовьтесь услышать историю о том, как модернизм встретился с древностями Эфеса; ваши стены будут наполнены историей. Коллекция Ephes предлагает привлекательный и впечатляющий вид, обеспечивая идеальную декор и симметричные пропорции между неоклассическим и традиционным дизайном. TR Geometrik şekillerin de aynı insanlar gibi birtakım karakteristik özellikleri vardır. Bu sayede tanımlanır ve sonsuz düzlemin bir parçası haline gelirler. “Sekizgen”, “sekiz açısı ve kenarı olan şekil” anlamına gelen “Octagon” da geometrinin beşgen, altıgen, yedigen gibi popüler çokgenlerinden biridir.

Sonsuz düzlemdeki şekillerden ilhamla, tasarım sürecinde bağımsız estetik anlayışını benimsediğimiz yepyeni bir koleksiyon seçkisi hazırladık. Modernliğin ve şıklığın aynı ölçüde ve ustalıkla harmanlandığı, geometrik şekillerin ve modern mimari esintilerin çağdaş tasarımla buluştuğu, birbirinden iddialı ve göz alıcı desenlerin hakim olduğu Octagon koleksiyonu sizlerle. EN Geometric shapes also have some characteristic features just like people. They are defined and being a part of infinite plane through these features. “Octagon” means shape has eight borders is one of the popular polygons in geometry such as pentagon, hexagon and heptagon.

Being inspired by geometric shapes in the infinite plane, we embraced an independent aesthetic concept and prepared a very new collection book for you. Octagon is a wallpaper collection that modernity and elegance are blended in the same measurements with great skill, where geometric shapes and modern architectural breeze meet contemporary design and glorious and eye catching designs have a dominant role. RU Геометрические формы также имеют некоторые характерные черты, как и люди. Они определены и являются частью бесконечного плана через эти особенности. «OCTAGON» означает, что форма имеет восемь границ. Это один из популярных многоугольников в геометрии, такой как пятиугольник, шестиугольник и семиугольник.

Вдохновленные геометрическими формами в бесконечной плоскости, мы приняли независимую эстетическую концепцию и подготовили для вас совершенно новую коллекцию. OCTAGON - это коллекция обоев, в которой современность и элегантность сочетаются в одних и тех же размерах с большим мастерством, где геометрические формы и современный архитектурный ветер сочетаются с современным дизайном, а великолепный и привлекательный дизайн играет доминирующую роль. Благодаря совершенно разному содержанию, он обещает уникальные визуальные впечатления, которые будут особенными для вас.

У него сильные линии, сильные, как ваше воображение, и знаковые дизайнерские инновации, которые вы даже не можете себе представить, которые вы можете найти в книге о коллекциях обоев. Более того, он кажется волшебным благодаря великолепной классической фактуре таких цветов, как серебро, золото и норка. Наш портфолио коллекций расширился, но волшебство не изменилось. EN Little children dream. They dream of being bigger. They dream of being a hero. Whether it's the DC Super Heroes or the well-loved animation characters, these legendary characters capture and stimulate the imaginations in a way that fits into a child's world. These instantly recognizable and aspirational characters allow kids to role play, not just as any super heroes but as the ultimate super heroes: Batman and Superman, Tom and Jerry reinforce the themes of friendship yet reflect a sibling rivalry the best of friends but also the best enemies! The Looney Toones bring high-energy humour and fun to a child's life. Children know these characters through television, shopping with their parents and mostly in the toy and clothing sector. ADAKIDS brings these characters to life for children in their own bedrooms in the form of our wallpapers.

TR Hepimiz sayılara ve kullanım yönlerine oldukça aşinayız, fakat sürekli dilimizde olmalarına rağmen derinliklerini sorgulama ihtiyacı duymuyoruz. Denizlerin figüratif sayısı yedidir, Büyükayı yedi yıldızlıdır, yer ve gök yedi kattan oluşur, insan yedi çakralıdır... Birbirinden farklı din ve kültürlerde ise: İslam dinine göre kâinat yedi safhada yaratıldı. Katoliklerde yedi sakrament esastır, Yahudilerde kutsal şamdan yedi mumludur, mitolojide yedi esas Tanrı vardır, Mısır'da Güneş Tanrısı Ra yedi ruhludur, Tibet'te yedi Buda vardır, Çin'de kutsal yedi element vardır... Son olarak, yedi sayısını insan tarafından düzenleyici ve belirleyici bir rakam olarak da sık sık görmekteyiz. Örneğin; bir hafta yedi gündür, feng shuide iletişim sayısı yedidir, Kızıldeniz'e göre yedi mevsim vardır ve tüm Japonlarda rakamların en uğurlusu yedidir... AdaWall'da yedi sayısından yola çıkarak yedinci kataloğuna verdiği "Seven" ismiyle, duvar kağıtlarının, desenlerinin birçok anlam taşımasının farkındalığını yaratmayı amaçladı. Tıpkı yedinin sadece bir rakamdan ibaret olmadığı gibi...

EN We are all very familiar with the numbers and their areas of usage, but we do not need to question their profundity, even though they are always in our language. The figurative number of the seas is seven, the great bear has seven stars, the earth and the sky have seven layers, the human has seven chakras... In different religions and cultures, for instance, according to the Islamic religion, the universe was created in seven stages. The Catholics recognize seven sacraments, Jews' sacred candelabrum has seven candles, there are seven essential gods in mythology, the Egyptian sun god Ra has seven souls, there are seven Buddhas in Tibet, there are seven sacred elements in China... Finally, we often see the number seven as a regulatory and decisive figure by human. For instance; there are seven days in a week, Feng Shui's contact number is seven, there are seven seasons for the Indians, and the luckiest number for Japans is seven... AdaWall also aimed to create awareness of the many meanings of the wallpapers, patterns, with the name of Seven for its seventh catalogue. Just as Seven is not just a number...

RU Мы все хорошо знакомы с цифрами, числами и правилами счёта, а также с их использованием. Но мы никогда не задумываемся над их значениями, хотя они каждый день у нас на языке. У Большой Медведицы семь звезд, у земли и неба семь уровней. В разных культурах и религиях, например согласно исламской, Вселенная была создана в семь этапов. У католиков есть семь таинственных монастырей. У иудеев - семь священных подсвечников, в мифологии есть семь главных богов. В Египте у Бога Солнца Ра - есть семь душ. В Тибете - есть семь Будд. В Китае есть семь священных элементов. Наконец, мы часто рассматриваем число 7 как нормативную и решающую фигуру. Например, семь дней в неделе. Есть семь сезонов в соответствии с индейцами. И самый удачный номер для Японии - семь. AdaWall использовал в названии седьмого каталога цифру семь, чтобы создать осведомленность о множественном значении дизайна, чтобы подчеркнуть, что семь не просто число.

TR “Less is more”... Ludwig Mies van der Rohe isimli mimarın modernizm ile beraber popülerlik kazanan ve evrensel şekilde benimsenmeye hızla devam eden bu tabiri, “Beta” koleksiyonunun oluşum sürecinde bizi besleyen anahtar bir motto oldu. “Az olan daha fazladır.”, “Az ve öz.” gibi manalar ifade eden bu söylem, abartılı detaylardan arındırılmış sade ve akıcı bir tasarımı; gösterişli bir tasarımdan çok daha güçlü olabileceği iddiasını ortaya koymaktadır. İlk duyduğunuzda kulağa fazla cesur gelen bu yaklaşımı, yeni koleksiyonumuz “Beta”yı inceledikten sonra tekrar değerlendirmenizi öneririz! Minimalist tasarımda çığır açacak olan yeni koleksiyonumuz, modern sanatın çarpıcı sadeliğini ve sofistike zarafetin göz alıcı derinliğini kanıtlar niteliktedir. “Alfa” koleksiyonunun devamı özelliğinde olan ve ikinci cilt olarak tasarılan “Beta”, AdaWall’un zirvedeki yerini sağlamlaştırarak çok özel bir tasarım serisini sizlere sunmaktadır. Geometrik şekillerin inceliklerle harmanlandığı konformist modelleri, soyut geçişler ile kompozisyon edilmiş ilham verici ikonik desenleri içeriğinde bulunduran “Beta” sizler için unutulması imkansız bir dizi deneyim olacak...

EN “Less is more”... That interpretation belongs to Ludwig Mies van der Rohe which is getting popularity and continuing to be embraced worldwide rapidly, was also a key motto for us because it impressed our designers in the process of creating “Beta” collection. His words mean some expressions such as “When it becomes less it seems like more.” or “concisely” that asserts when a modest and smooth design is purified from exaggerated details, it becomes stronger than a flashy design. When this approach is heard for the first time, it may sound very assertive, but we suggest you to evaluate it again after you see our new collection “Beta”! “Beta” collection which will break a new ground on the minimalist design is somehow a proof for striking simplicity of modern art and glamorous deepness of sophisticated elegance. “Beta” is designed as the second vol of Alfa collection series that consolidates AdaWalls’ position at the peak by offering you a very special design series. The collection consists of conformist models that geometric shapes are blended gracefully and iconic patterns are composed with abstract transition figures will become a unforgettable experience sequence for our customers.

RU “Меньше значит больше”... Эта трактовка, принадлежащая Людвигу Мис ван дер Роэ и, которая продолжает набирать популярность и быстро охватывать весь мир, стала ключевым девизом для нас, потому что произвела впечатление на наших дизайнеров в процессе создания коллекции “BETA”. Эти слова означают некоторые выражения, такие как “когда становится меньше, кажется, что больше” или “лаконично”. Они утверждают, что скромный и гладкий дизайн, очищенный от преувеличенных деталей, сильнее, чем кричащий и вызывающий дизайн. Когда это выражение слышится впервые, оно может звучать очень агрессивно, но мы предлагаем вам оценить его еще раз после того, как вы увидите нашу новую коллекцию “BETA”! “BETA” коллекция создает новую почву для минималистского дизайна и, в некотором роде, является доказательством поразительной простоты современного искусства и гламурной глубины утонченной элегантности. Коллекция “BETA”, разработанная как второй том серии коллекции “Alfa”, укрепляет позиции AdaWalls на пике популярности, предлагая вам совершенно особенную дизайнерскую серию. Коллекция, состоящая из конформистских моделей, которые изящно сочетают геометрические фигуры и знаковые абстрактные, переходные фигуры, станет незабываемой последовательностью впечатлений для наших клиентов.

TR Alfa insan biliminde; erkeklerin ekip olarak sorunsuz çalışabilmesi için aralarında belirledikleri ve kabul ettikleri lider pozisyonundaki kişi Alfa kelimesiyle adlandırılıyor. Lider... Erkek, sakin, kararlı, kendine güvenen, belki düz, belki biraz derin... Yalnız, asla şaşalı, karışık ya da dağınık değil; çünkü liderler, kendini göstermek ya da kanıtlamak için uçlarda davranmazlar, onların kendilerine özgü bir havaları vardır. Biz de bu katalogda bir lider benimsedik kendimize. Katalogumuzdaki desenler için iddiamızı sadelikte ve derinlikte sakladık. Katalogumuzda 7 tema vardır; Balıksırtı, Yaratıcılık, Beton, Sade, Modern, Tahta, Hasır.

EN Alfa, according to the human history, is a man, who set out to be able to work as a team without any problems and the person in the leading position they accepted was again called Alfa. Leader... Male, calm, determined, confident, maybe flat, perhaps a little deep... However, never hesitant, not mixed or scattered; because leaders are at the tip to show or prove themselves they do not behave, they have their own air. Also, their self-confidence is quiet, simple. It is significant. Sometimes, for them to be assertive, the word is hidden in the depth of the simplicity. Here we are when we designed our catalogue, we brought such a leader before our eyes. This catalogue has 7 themes: Herringbone, Creativity, Concrete, Plain, Modern, Wood, Wicker.

RU Альфа - если взглянуть на историю человечества - это человек, который избирался и утверждался на позицию лидера в группе мужчин для их беспроблемной работы в команде. Лидер - мужчина, спокойный, решительный, уверенный в себе, возможно слишком прямолинейный, глубокий. Однако, никогда он не будет нерешительным, неуверенным или неупорядоченным, потому что лидеры не бросаются в крайности, чтобы показать себя или что-либо доказать; они сами устанавливают правила. Помимо этого их... уверенность в себе тиха, спокойна, но несет глубокий смысл. И даже иногда вся суть их уверенности спрятана в простоте, кажущейся такой на первый взгляд. Наша команда, создавая этот каталог, представляла себе именно такого лидера. В этом каталоге 7 тем: Herringbone, Creativity, Concrete, Plain, Modern, Wood, Wicker.

İster DC Süper Kahramanlar, isterse sevilen animasyon karakterleri olsun, bu efsanevi karakterler hayal gücünü bir çocuğun dünyasına uyacak şekilde yakalar ve teşvik eder. Bu anında tanınabilir ve istek uyandıran karakterler, çocukların sadece süper kahramanlar gibi değil, aynı zamanda süper kahramanlar gibi rol oynamalarına da izin verir: Batman ve Süpermen, Tom ve Jerry, dostluk temalarını pekiştirir, aynı zamanda kardeş bir rekabeti yansıtır -arkadaşların en iyisidir, aynı zamanda en iyi düşman! Looney Tunes, bir çocuğun hayatına yüksek enerjili mizah ve eğlence getiriyor. Çocuklar bu karakterleri televizyon aracılığıyla, ebeveynleriyle alışveriş yaparak ve çoğunlukla oyuncak ve giyim sektöründe tanır. ADAKIDS, duvar kağıtlarımız biçiminde, bu karakterleri çocuklar için kendi yatak odalarında hayata geçiriyor.*

Whether it's the DC Super Heroes or the well-loved animation characters, these legendary characters capture and stimulate the imaginations in a way that fits into a child's world. These instantly recognizable and aspirational characters allow kids to role play, not just as any superheroes but as the ultimate superheroes: Batman and Superman, Tom and Jerry reinforce the themes of friendship but reflect a sibling rivalry -the best of friends but also the best enemies! The Looney Tunes bring high-energy humour and fun to a child's life. Children know these characters through television, shopping with their parents and mostly in the toy and clothing sector. ADAKIDS brings these characters to life for children in their bedrooms in the form of our wallpapers.*

Будь то супергерои DC или любимые анимационные персонажи, эти легендарные персонажи захватывают и стимулируют воображение таким образом, что вписываются в мир ребенка. Эти, мгновенно узнаваемые, и вдохновляющие персонажи, позволяют детям играть в ролевые игры не просто как супергерои, а как настоящие герои. Супергерои: Бэтмен и Супермен, Том и Джерри усиливают темы дружбы, но отражают соперничество между братьями и сестрами - лучшие друзья, но и лучшие соперники! The Looney Tunes привносят высокую энергию юмора и веселье в жизнь ребенка. Дети знают этих персонажей из телевизора, шопинга с родителями и, в основном, из сферы игрушек и одежды. POSTER (MURAL) INSTALLING INSTRUCTIONS

1-Checking The Product

Check the panel number and pattern before applying the wallpaper adhesive. First, lay panels face down on a flat surface and ensure the panel patterns match with each other. Then, apply the adhesive at the back of wallpaper.

2. Applying The Product

After you make sure the first and the second panel overlap all joining edges by 0,3mm or 0,7mm, start installing the product. (Repeat steps for remaining panels)

3. Trimming The Joining Edges

Use a straight edge and cut off the excess edges carefully with a knife.

4. Completing The Installation

Apply the panel onto the wall using a soft dry cloth or a rubber squeegee. Work from top to bottom taking extra care not to overwork each panel.

USEFUL TIPS FOR THE INSTALLATION

1. Make sure wall surface clean and smooth.
2. During the installation, the adhesive must be evenly applied between the wall and the product by using a spud or a brush.
3. After wallpaper adhesive, installation of the product must be finished in 10-20 min.
4. Since the placement of the first panel determines the overall look of the finished mural, take extra time and care to place it accurately. Use a level and a plumb line.
5. First, make sure the second pattern overlaps the first one on the joining edges by approximately 0,3mm-0,7mm. Then hang the remaining panel.
6. Take extra care to make sure not to get adhesive on the patterned side whilst joining the edges. Hard objects like spuds and rollers can harm the surface of the product. They must be used with extra care.
7. The backside of the product is nonwoven paper and is produced in 105 cm width. Special order in different designs is available. For further information please contact with our team.

TR Gürültü, zaman zaman farkında olduğumuzda bizi rahatsız edip kaçırır, zaman zaman ise farkında olmadığımız fakat bizi içten içe yoran bir çevre unsurudur. Buna nazaran tasarımcılar ve iç mimarlar daha çok göze hitap eden çalışmalar yapıyorlar ve bu durumu atlıyorlar. Fakat artık kulağa hitap eden çalışmalar yapmanın vakti geldi. AdaWall, bu iş için kolları sıvadı ve Dünyada bir ilk olan AdaWall Akustik Duvar Kâğıdı serisini oluşturdu.

EN Noise is an environmental element that sometimes make us escape when we are aware of it, and sometimes we are unaware of it, but annoys us deeply. Besides these designers and interior architects try to make works which mostly appeal to the eye, they do not consider this. But it is time to make works which appeal to ear any more. AdaWall gets ready to do this and has produced to the first AdaWall Acoustic Wallpaper series in the World.

RU Шум- это элемент окружающей среды, который когда мы его осознаем раздражает нас и которого мы избегаем, а когда не осознаем его, является причиной навалившейся на нас усталости. Несмотря на это, дизайнеры и архитекторы по внутренней отделке проводят работы, которые в большей степени воспринимаются визуально и упускают из виду эту ситуацию. Но теперь настало время обратить внимание на работы, которые влияют на наш слух. AdaWall закатали рукава для выполнения этой задачи и создали серию акустических обоев AdaWall.
